JETSPEED SKATES

JETSPEED FT1

JetSpeed FT1 is the first ever one-piece boot frame skate in the JetSpeed family. Featuring LITEFRAME 360 technology, the JetSpeed FT1 is a highly refined skate design with leading edge engineering to help maximize a player's speed on the ice.

Its ultra-lightweight structure makes it the lightest pro caliber JetSpeed skate to date. The monocoque construction gives players two critical benefits: A complete 360° fit around and underneath the foot for a customized fit, and a seamless direct energy transfer platform that helps generate more speed with every stride.

JETSPEED FT1 [NEW] SKATE [SKFT1]

SIZES	SR	6-12	D	FULL/HALF
	JR	6-12	EE	FULL/HALF
		4-5.5	E	FULL

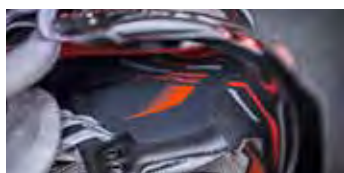

LITEFRAME 360 TECHNOLOGY

Lightweight one-piece composite boot frame that provides players with a close and tapered fit around the entire foot. The technology also eliminates the need for an outsole helping the player generate extreme speed.

TOTALDRI PRO LINER

Specialized premium material designed to wick away moisture quickly and efficiently, to keep feet dry and skates light.

SPEEDBLADE HYPERGLIDE

Polished steel blade that helps provide advanced performance and glide efficiency.

QUARTER PACKAGE

TECHNOLOGY 360 ROCKETFRAME COMPOSITE WITH LITEFRAME
degree fit-360 One-piece boot frame providing a .and an unprecedented direct energy transfer system

FIT

TAPERED FIT
degree tapered fit-360 .Provides players with a close .around and under the foot

CORE

3 SPEEDCORE
Super lightweight, rigid and thermo-formable core .generating ultimate performance

LINER

TOTALDRI PRO LINER WITH DURAZONE ABRASION PROTECTION
High performance moisture-wicking material .keeps feet dry and skates light

COMFORT PAD

SMOOTH CONTOUR PRO
Soft pad around collar of the boot for superior .foot and ankle comfort

ANKLE PADDING

MULTI-DENSITY MEMORY FOAM
Asymmetrical foam comfort pads wrap anatomically around .player's foot for customized fit and comfort

TONGUE

TRITECH TONGUE WITH MOLDED LACE-BITE PROTECTION
.Molded to players' feet and high ankles .with enhanced lace-bite protection

MIDSOLE

LIGHTWEIGHT COMPOSITE MIDSOLE
.Enhanced energy transfer platform for blade to boot interface

FOOTBED

CCM CUSTOM FOOTBED (POWERED BY CURREXSOLE)
Customized arch support provides an increased area of contact .with the skate for maximized performance

HOLDER

4.0 SPEEDBLADE
Proven durability with increased attack angle providing greater .strides and cornering

RUNNER

SPEEDBLADE HYPERGLIDE
High performance polished steel blade for .greater glide efficiency and a longer edge life

JETSPEED FT380 [NEW] SKATE [SK380J]

SIZES SR 6-12 D FULL

QUARTER PACKAGE	ROCKETFRAME COMPOSITE 3D-lasted lightweight composite boot with pro ergonomic shape providing excellent heel lock and speed generation
CORE	2 SPEEDCORE Lightweight, rigid and thermo-formable core .generating excellent performance
LINER	TOTALDRI LINER WITH DURAZONE ABRASION PROTECTION High performance moisture-wicking material .keeps feet dry and skates light
COMFORT PAD	SMOOTH CONTOUR PRO Soft pad around collar of the boot for excellent foot .and ankle comfort
ANKLE PADDING	MULTI-DENSITY MEMORY FOAM Symmetrical foam comfort pads wrap around player's foot .for customized fit and comfort
TONGUE	FELT TONGUE WITH EMBOSSED LACE-BITE PROTECTION 7mm felt with reinforcement layers for increased comfort .and protection
OUTSOLE	REINFORCED CLEAR TPU INJECTED OUTSOLE WITH EXHAUST SYSTEM .Rigid design that helps transfer energy
FOOTBED	CCM ANATOMICAL RESPONSE .Provides great support and comfort
HOLDER	4.0 SPEEDBLADE Proven durability with increased attack angle providing .greater strides and cornering
RUNNER	SPEEDBLADE STAINLESS STEEL .Provides a long lasting edge for long term performance

JETSPEED FT370 [NEW] SKATE [SK370J]

SIZES SR 6-12 D FULL

QUARTER PACKAGE	ROCKETFRAME COMPOSITE 3D-lasted lightweight composite boot with pro ergonomic shape providing excellent heel lock and speed generation
CORE	1 SPEEDCORE Lightweight and thermo-formable core .generating excellent performance
LINER	HEAVY DUTY MICRO-FIBER WITH DURAZONE ABRASION PROTECTION .Comfortable and high resistance to wear
COMFORT PAD	SMOOTH CONTOUR PRO Soft pad around collar of the boot for excellent foot .and ankle comfort
ANKLE PADDING	MULTI-DENSITY MEMORY FOAM Symmetrical foam comfort pads wrap around player's foot .for customized fit and comfort
TONGUE	FELT TONGUE WITH EMBOSSED LACE-BITE PROTECTION 7mm felt with reinforcement layers for increased comfort .and protection
OUTSOLE	REINFORCED INJECTED OUTSOLE WITH EXHAUST SYSTEM .Rigid design that helps transfer energy
FOOTBED	CCM ANATOMICAL RESPONSE .Provides great support and comfort
HOLDER	4.0 SPEEDBLADE Proven durability with increased attack angle .providing greater strides and cornering
RUNNER	SPEEDBLADE STAINLESS STEEL .Provides a long lasting edge for long term performance

SIZES	SR	39-46	D	FULL
	JR	33-38	D	FULL

QUARTER PACKAGE	INJECTED WITH MESH FORM SKIN .Durable outer shell with foot support and comfort
LINER	BRUSHED MICRO-FIBER Provides comfort and a resistance .to wear and tear
TONGUE	FELT TONGUE .5mm felt tongue for comfort and protection
OUTSOLE	INJECTED OUTSOLE .Helps energy transfer with every stride
FOOTBED	CCM FOOTBED .Provides support and comfort
HOLDER/RUNNER	SPEEDBLADE PRO Benefits Non replaceable stainless steel blade .with elevated holder for increased attack angle

SUPER TACKS SKATE

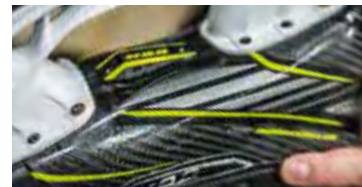

SUPER TACKS

Five years in the making, CCM introduces the innovative Super Tacks skates engineered through leading hockey biomechanics research and state-of-the-art construction technology. Featuring MonoFrame 360 technology, Super Tacks are a one-piece boot frame providing a fully anatomical heel-lock with a 360° fit around and under the foot — a fit that is molded to the player's DNA. The Super Tacks construction eliminates the need for an outsole, providing greater foot-to-skate contact area and an unprecedented direct force propulsion system to help generate maximum power.

MONOFRAME 360 TECHNOLOGY

One-piece carbon composite boot frame with a fully anatomical shape that is molded to every inch of the player's foot, around and under, which helps provide more foot-to-skate contact. The one-piece frame construction eliminates the need for an outsole helping to create a more direct form of force propulsion.

ADV PRO MOLDED TONGUE

Super lightweight, advanced tongue with an injected lace bite prevention layer helps increase comfort, protection and performance.

SPEEDBLADE BLACK

Premium oxide treated blade helps provide advanced performance, a longer edge life and a higher resistance to corrosion.

SUPER TACKS SKATE HEAT MOLDABLE (SKST3D)

QUARTER PACKAGE

MONOFRAME 360 ONE-PIECE CARBON COMPOSITE
One-piece boot frame providing a 360-degree anatomical heel-lock fit with an unprecedented direct energy transfer system.

FIT

DNA MOLDED FIT
Provides players with a comfortable 360-degree customized fit around and under the foot.

CORE

HEAT-MOLDABLE T-FORM CORE
Super lightweight, rigid and thermo-formable core generating ultimate performance.

LINER

TOTALDRI LINER WITH DURAZONE ABRASION PATCH
High performance moisture-wicking material keeps feet dry and skates light and abrasion patch offers high resistance to wear and tear.

COMFORT PAD

SMOOTH CONTOUR PRO
Dense pad around collar of the boot for superior foot and ankle comfort.

ANKLE PADDING

MULTI-DENSITY MEMORY FOAM
Asymmetrical foam comfort pads wrap anatomically around player's foot for customized fit and comfort.

TONGUE

ADV PRO MOLDED TONGUE WITH INJECTED LACE-BITE PROTECTION
Lightweight and molded to players' feet and upper ankles, with enhanced lace-bite protection for maximum fit and comfort.

MIDSOLE

LIGHTWEIGHT COMPOSITE MIDSOLE
Enhanced energy transfer platform for blade to boot interface.

FOOTBED

CCM CUSTOM FOOTBED (POWERED BY CURREXSOLE)
Customized arch support provides an increased area of contact with the skate for maximized performance.

HOLDER

SPEEDBLADE 4.0
Proven durability with increased attack angle providing greater strides and cornering.

RUNNER

SPEEDBLADE BLACK
High performance blade with oxide treatment for a longer edge life and a greater resistance to corrosion.

SIZES

SR	6-12	D	FULL/HALF	349 9005
SR	6-12	EE	FULL/HALF	349 9006
JR	4-5.5	EE	FULL/HALF	349 9000

ULTRA TACKS SKATE

ULTRA TACKS

The CCM Ultra Tacks skate is perhaps the most evolved power performance hockey skate using today's customary skate making technology. Featuring the AttackFrame 2, the CCM Ultra Tacks consist of a stiffer carbon composite construction, shaped to connect the player's feet with the skates. Combined with a high definition heel lock and an ergonomically wrapped forefoot, this helps to create an ultimate force transfer platform for players to feel as fast as they possibly can.

ATTACKFRAME 2 TECHNOLOGY

Two piece carbon composite boot frame molded around the player's foot helping to provide excellent foot-to-skate contact and locking the heel into the skate for ultimate fit and performance.

CARBON COMPOSITE OUTSOLE

Ultra lightweight and high stiffness are the key elements which set this outsole apart, allowing a close connection between the foot and the blade for excellent power transfer.

TOTALDRI LINER

Premium material specialized and designed to wick away moisture quickly and efficiently, to keep feet dry and skates light.

ULTRA TACKS SKATE

[SKUTK]

SIZES

SR	6-12	D	FULL/HALF	349 9011
SR	6-12	EE	FULL/HALF	349 9012

QUARTER PACKAGE

ATTACKFRAME 2 CARBON COMPOSITE

Pro designed carbon composite boot frame shaped and molded to the prototypical player's foot, helping them generate extreme skating power.

FIT

MOLDED FIT

Provides players with a high definition heel lock shape and wrapped forefoot for an optimized connection between the player's foot and the skate.

CORE

HEAT-MOLDABLE T-FORM CORE

Super lightweight, rigid and thermo-formable core generating ultimate performance.

LINER

TOTALDRI LINER WITH DURAZONE ABRASION PATCH

High performance moisture-wicking material keeps feet dry and skates light and abrasion patch offers high resistance to wear and tear.

COMFORT PAD

SMOOTH CONTOUR PRO

Dense pad around collar of the boot for superior foot and ankle comfort.

ANKLE PADDING

MULTI-DENSITY MEMORY FOAM

Symmetrical foam comfort pads wrap around player's foot for customized fit and comfort.

TONGUE

TRITECH PRO FELT TONGUE WITH INJECTED LACE-BITE PROTECTION
Three-layered, 7mm felt with HDPE foam and injected lace-bite prevention zone for increased comfort and protection.

MIDSOLE

LIGHTWEIGHT COMPOSITE MIDSOLE

Enhanced energy transfer platform for blade to boot interface.

OUTSOLE

EXTRA STIFF CARBON COMPOSITE WITH EXHAUST SYSTEM

Increased torsional rigidity to maximize energy transfer and air vent to keep feet dry and skates light.

FOOTBED

AIR SYSTEM FOOTBED

Lightweight comfort footbed with aeration vents, providing excellent foot-to-skate contact and comfort.

HOLDER

SPEEDBLADE 4.0

Proven durability with increased attack angle providing greater strides and cornering.

RUNNER

SPEEDBLADE BLACK

High performance blade with oxide treatment for a longer edge life and a greater resistance to corrosion.

MADE OF HOCKEY

RIBCOR SKATES

RIBCOR 70K SKATE [NEW]

Introducing the completely redesigned RibCor 70K skate. It was time for a change and it culminated in a fully revamped skate built from leading biomechanics research and feedback from the NHL's top players who choose to wear this skate.

RibCor 70K features the innovative FlexFrame Technology which offers excellent forward flexion and the best lateral stability to provide players like Crosby, Duchene, Forsberg and Tatar with the most optimized skating stride in hockey.

FLEXFRAME TECHNOLOGY

Based on industry leading biomechanics research conducted with top NHL players, the FlexFrame Technology provides excellent forward flexion to help players generate power and lateral stability

LIGHTWEIGHT SKATE CONSTRUCTION

Premium composite materials help reduce the weight for the skate by over 70 grams versus the previous generation.

CONTOURED HEEL LOCK DESIGN

A new high definition heel lock and ankle lock boot shape replaces the need for the Pump from the previous generation while offering a flexible fit

QUARTER PACKAGE	COMPOSITE QUARTER 3D-lasted quarter with ultimate forward flexion and lateral stability design, maximizing the skater's stride
FIT	FLEXIBLE FIT Provides a contoured and snug fit for all players
CORE	FLEXFRAME TECHNOLOGY Flexion zones in the eyelet area, combined with strategic reinforcements in the rest of the core offers a bio-mechanically correct stride
LINER	TOTALDRI LINER WITH DURAZONE ABRASION PROTECTION High performance moisture-wicking material keeps feet dry and skates light
COMFORT PAD	SMOOTH CONTOUR PRO Soft pad around collar of the boot for superior foot and ankle comfort
ANKLE PADDING	MULTI-DENSITY MEMORY FOAM Symmetrical foam comfort pads wrap anatomically around player's foot for customized fit and comfort
TONGUE	TRITECH PRO TONGUE WITH MOLDED LACE-BITE PROTECTION 7mm felt with HDPE foam and injected lace-bite prevention, Three-layered zone for increased comfort and protection
MIDSOLE	LIGHTWEIGHT COMPOSITE MIDSOLE Enhanced energy transfer platform for blade to boot interface
OUTSOLE	EXTRA STIFF CARBON COMPOSITE WITH EXHAUST SYSTEM Offers torsional rigidity to maximize energy transfer
FOOTBED	GRIP TONITE Locks a player's foot in the skate while providing excellent support and comfort
HOLDER	4.0 SPEEDBLADE Proven durability with increased attack angle providing greater strides and cornering
RUNNER	SPEEDBLADE BLACK Premium blade with oxide treatment provides a harder runner with a longer edge life and excellent resistance to corrosion

SUPERTACKS 2.0 STICK

SUPERTACKS 2.0 STICK **[NEW]**

Over the past two years, the Tacks line has been proving itself due to its consistent performance. The Super Tacks 2.0 stays true to that while pushing the performance and durability levels further, as a result of our new partnership with Sigmatex, a global leader in performance composite fiber. The kick point has also been improved to give better feel on passes while providing great loading on wrist shots and slap shots. Finally, the blade is extremely stiff allowing players to hit their target more consistently, really improving their shooting accuracy. The new Super Tacks 2.0 redefines what all around performance means.

PERFORMANCE COMBINED WITH DURABILITY

Our new partnership with Sigmatex allows us to achieve new performance and strength levels due to their tried and true carbon weave. This technology is also used on performance race cars and military equipment.

MORE RESPONSIVE MID KICK POINT

Players will get the same benefits from the two distinct loading zones, one softer for wrist shots and one stiffer for slap shots, but will also have the advantage of having a more responsive taper

UNMATCHED SHOOTING ACCURACY

The blade on the SuperTacks 2.0 is very stiff making the opening angle very slim, so it allows players to be more consistently accurate. The addition of Sigmatex not only provides stiffness but helps to increase durability.

SUPERTACKS 2.0 [NEW] [HSSTK2]

MATERIAL	SIGMATEX An exclusive spread tow fabric developed by one of the world's leading developers of composite solutions that is not only ultra-lightweight, but very strong due its near zero .wrinkling during the assembly
KICK POINT	RESPONSIVE DUAL FLEX PROFILE Mid kick point with two optimized loading zones, one for wrist shots and one for slap shots, while making the bottom of the taper .a little bit softer for a more responsive feel
SHAFT	REINFORCED BUMPER TECHNOLOGY Increase in the strength of the shaft by adding material in the slash zone for .uncompromising durability
BLADE	BLADE ACU2 An extremely stiff blade with added durability .due to its unique layup and SigmateX

RBZ FT1 STICK **[NEW]**

The new RBZ FT1 features cutting-edge technology that is designed to help players shoot harder. The Faceplate Technology has been optimized to increase the stiffness while reducing the weight of the blade. This change, combined with a taper that allows for a more efficient energy transfer means increased smash factor, which helps to generate more shot power with the RBZ FT1. Players can now benefit from an even harder shot while having a better feeling stick. Not only is the performance improved, but the look has also been refreshed to update its expressive personality.

INCREASED SMASH FACTOR

The new RBZ FT1 has a higher smash factor which helps players shoot harder as a result of more power being generated on all shots.

OPTIMIZED FACEPLATE TECHNOLOGY

The improved Faceplate Technology has been designed to increase the stiffness while reducing the weight of the blade. It allows us to achieve higher C.O.R throughout the blade.

RENEWED DESIGN

Keeping the preferences of Pro players in mind, the new design keeps the expressive colors of RBZ while refreshing its personality.

RBZ FT1 [NEW] [HSRBZ6/HZRBZ6GR]

BLADE

TECHNOLOGY FACEPLATE FT1

Improved structure and design of the Faceplate for increase stiffness and C.O.R to maximize power on all shots. The weight has also been reduced considerably

TAPER

2 POWERHOSEL

Longer Shaft tip sits deeper towards the heel of the blade for more efficient energy transfer

SHAFT

TECHNORA REINFORCEMENT

Layers of Aramid fibers which provide great durability without compromising performance due to its bending properties

KICK POINT

CUSTOM KICK POINT

A unique flex profile that is ideal for shooters since the stick flexes where the player's bottom hand is placed

RIBCOR TRIGGER ASY

RIBCOR TRIGGER ASY

The Ribcor line has always been unique due to its visual technology that helps generate amazing loading and quick release. The new Ribcor Trigger ASY will still feature the visible Pop Matrix Technology, but the layup will be completely new. The ASY-1 Flex Profile was developed to maximize the performance of every single fiber in the stick. This allows the players to release even quicker than before. The structure of the blade has also been modified to increase puck feel and reduce weight. The new Ribcor Trigger ASY stays true to the DNA of the Ribcor line while, once again, improving its feel and performance.

ASY-1 FLEX PROFILE

A complete new layup allows for an even quicker release. Designed with feedback from NHL players and validated in the CCM Performance Lab.

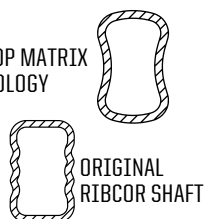

POP MATRIX TECHNOLOGY

Performance fibers are constantly in tension for a quick and efficient power transfer and loading while being protected by the outer layers.

TECHNORA REINFORCEMENT

Aramid fiber that provides incredible durability without compromising performance due to its bending properties.

NEW POP MATRIX TECHNOLOGY

ORIGINAL RIBCOR SHAFT

ASCENT BLADE 2

The structure has been modified to reduce the weight and improve puck feel while maintaining the stiffness in the toe.

RIBCOR TRIGGER ASY

[HSR184]

WEIGHT 415 GRAMS

FLEX PROFILE **ASY-1 FLEX PROFILE**
A complete new layup allows for an even quicker release. Designed with feedback from NHL players and validated in the CCM Performance Lab.

CONSTRUCTION **POP MATRIX TECHNOLOGY**
Performance fibers are constantly in tension for a quick and efficient power transfer and loading while being protected by the outer layers.

BLADE **ASCENT BLADE 2**
Lighter blade that has been developed to improve puck feel while maintaining the stiffness in the toe.

SHAFT **TECHNORA REINFORCEMENT**
Increase in durability without compromising performance.

KICK POINT **LOW KICK POINT**
Easy to load for a quick and surprising release.

STIFFNESS

RIBCOR 49K

[HSRC49]

WEIGHT 450 GRAMS

CONSTRUCTION **POPMATRIX TECHNOLOGY**
Performance fibers are constantly in tension for a quick and efficient power transfer and loading while being protected by the outer layers.

BLADE **ASCENT BLADE**
New optimized stiffness profile that goes from softer in the heel to extra stiff at the toe for a great combination of feel and quick release.

HIGH LOADING RATIO **POWER TAPER RATIO OF 3:1**
More vertical stiffness means that less energy is wasted down into the ice and more energy is transferred all the way through to the blade.

KICK POINT **LOW KICK POINT**
Easy to load for a quick and surprising release.

OAKLEY 2.0

“OPTICAL CORRECTNESS”

WHAT IS OPTICAL CORRECTNESS?

Patent protected visor technology that ensures the best possible optical performance beyond the full field of vision for the hockey player.

HOW IS IT ACCOMPLISHED?

1. Visor Curvature: Horizontal (left to right) and vertical (up and down) curvature of visor.
2. Visor Taper: The visor is tapered from thicker in the centre to thinner on the sides.

WHAT YOU SEE IS WHAT YOU GET.

The optimized combination of curvature and taper ensures the correctness of the image projected on the retina allowing the hockey player to stickhandle, pass and shoot with precision.

QUICKLITE PROTECTIVE

QUICKLITE PROTECTIVES

An evolution of our successful CCM RBZ protective line, the new QuickLite line was designed to keep the same fit and amazing lightweight feel of the RBZ family while taking it to the next level. This line introduces Ventshield technology which improves breathability. New design improvements have been added to the line such as a new shell for shin guards, new fit in the glove and pants and a new elbow construction.

VENTSHIELD TECHNOLOGY

The Ventshield technology is an engineered plastic that allows for improved breathability and optimized weight.

DRYFOAM TECHNOLOGY

DryFoam technology is a closed cell foam that absorbs less sweat allowing the product to remain lightweight and comfortable throughout the game.

QUICKLITE SHOULDER PADS [SPQLT]

SIZES

SR S, M, L, XL 358 7900

CONSTRUCTION

MOLDED DRYFOAM TECHNOLOGY
Closed cell foam that absorbs less sweat to keep the player dry and the product lightweight.

CAPS

UFOAM CONSTRUCTION (EPP/EVA COVERAGE)
Lightweight pro level protection.

TORSO

PREMIER ZOTEFOAM® BASE WITH VENTSHIELD TECHNOLOGY
Improved breathability and lightweight feel.

BICEPS

HIGH DENSITY FOAM WITH ADJUSTABLE BICEPS
Custom comfort fit and professional level protection.

STERNUM

ANATOMICAL MOLDED PE WITH NECK COMFORT PAD
Adaptable fit and professional level of protection.

CLAVICLE

ADDITIONAL HIGH DENSITY FOAM CLAVICLE COVERAGE
Pro level protection in key impact area.

QUICKLITE 270 SHOULDER PADS [SP270]

SIZES

SR S, M, L, XL 358 7700

CONSTRUCTION

MOLDED DRYFOAM TECHNOLOGY
Closed cell foam that absorbs less sweat to keep the player dry and the product lightweight.

CAPS

MOLDED LOW PROFILE PE CAP
Lightweight and high level of protection.

TORSO

EVA MOLDED VENTED FRONT AND BACK BASE
Improved breathability and lightweight feel.

BICEP

ADJUSTABLE MOLDED PE CAP
Customizable elite protection.

STERNUM

PE ANATOMICAL MOLDED PE WITH NECK COMFORT

MADE OF HOCKEY

PREMIER GOALIE GEAR

PREMIER PADS

The goal pad that revolutionized blocking a shot between the posts with the first injection molded foam core technology is now the lightest Premier since its inception. Designed to maximize coverage and play big, the new exceptionally thin profile saves weight and allows a deeper fit. More weight reduction focused in the leg channel and redesigned pro leg strap set-up to optimize leg rotation when going butterfly and the reverse VH. CCM Premier is engineered to improve the center of mass to reduce weight at the key areas to maximize performance.

THINNER PROFILE

Redesigned to reduce weight and improve the center of mass with higher density foam to maintain stiffness and remain square to the shooter.

DEEPER KNEE STANCE

Enhanced five-hole closure in the butterfly position and reverse VH stance.

PRO STRAP SYSTEM

Optimize your leg rotation with a new single knee and single calf strap system with high quality pro leather construction.

PREMIER GOALIE GEAR

PREMIER CATCH GLOVE

The most iconic one piece injection molded glove was the first one piece glove to gain mass acceptance at the highest levels of the position. The Premier glove known for the game ready features D30® smart foam technology in the catching surface for superior protection and to keep the puck in the glove. The awe inspiring fit and comfortable hand closure remains with the redesigned shape to allow more catching area expanding the sweet spot for the glove save.

D30® TECHNOLOGY

Greater protection for superior shock absorbing results.

POWERED BY
D30®
IMPACT PROTECTION

COMFORT

Anatomical hand strap design for increased comfort and feel.

LARGER CATCHING AREA

Bigger glove for more saves.

D30® TECHNOLOGY

First finger protection.

POWERED BY
D30®
IMPACT PROTECTION

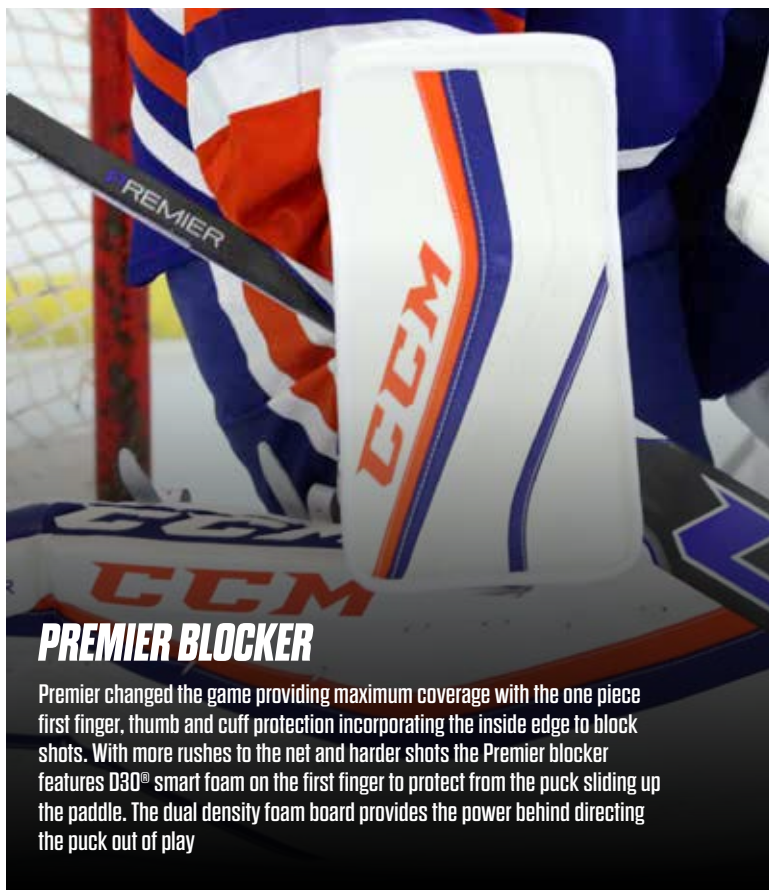

BINDINGLESS DESIGN

Maximize coverage.

ADJUSTABLE CUFF

Increased mobility for stick handling.

PREMIER BLOCKER

Premier changed the game providing maximum coverage with the one piece first finger, thumb and cuff protection incorporating the inside edge to block shots. With more rushes to the net and harder shots the Premier blocker features D30® smart foam on the first finger to protect from the puck sliding up the paddle. The dual density foam board provides the power behind directing the puck out of play

MOBILITY

Designed specific to youth sizing for optimum mobility.

UPPER THIGH PROTECTION

Designed specific to youth goalies.

ADJUSTMENTS

Multiple adjustment for customize fit.

LIGHTWEIGHT

Lightweight material and foam to reduce fatigue.

PROTECTION

Belly, shoulder and arm protection.

YOUTH FIT

Designed for youth sizing.

TACKS GOALIE SKATE

The CCM Tacks goalie skate was built with the intention of giving goalies a skate that is tailored to their specific needs. That is, a firmly constructed skate that helps generate power in their strides and T-pushes. It also allows them to flex lower into their static stance and provides excellent comfort and support for their positioning and stance.

POWER FORM TEXTURIZED COMPOSITE

High end, layer-formed boot frame with goalie specific reinforcements, giving goalies excellent side to side power transfer capabilities for the strides and T-pushes with elite level support and comfort.

ASYMMETRIC FLEX STANCE CONTOUR

Boot collar shaped and molded to allow the goalie to flex deeper into the stance and benefit from extremely quick recovery to stand back up.

MULTI-LAYER D30® TONGUE WITH LACE-BITE PROTECTION

Superior protection from a thick felt layer, D30® smartform and lace-bite protection tongue. Excellent comfort zone specifically designed for goalie positioning and movement.

FISCHER

TECH FEATURES

PRIME TEX™

The Prime Tex™ carbon shaft construction gives increased energy transfer and more powerful shots as result.

PLAIN TECH

Plain Tech 3k carbon shaft construction reduces weight and increases performance.

CAP TECH

Cap Tech is a patented micro thin foil system wrapped around the shaft for more impact durability.

RHT

RHT (responsive hosel tech) with a wider taper for stronger torsional stiffness, increased accuracy and response.

DUAL FOAM CORE BLADE

Dual Foam Core Blade provides more sensitive puck feeling and quicker puck release.

POLY-AIR-BOND BLADE

Poly-Air-Bond blade combines responds with puck feel. Also for all inline surfaces such as inline courts or asphalt.

MONO-COMP-TECH

Mono-Comp-Tech – Fischer is one of the few producers worldwide to manufacture a hockey stick in one single process without fusing shaft and blade in separate steps.
